## PICKS OF THE WEEK

**Read of the Week**

*Geek Love* by author Katherine Dunn is a wild, often horrifying, novel about freaks, geeks and other aberrancies of the human condition who travel together as a circus — It's a solipsistic funhouse world that makes "normal" people seem bland and pitiful. Sort of like Tod Browning's *Freaks* crossed with David Lynch and John Irving and perhaps George Eliot -- the latter for the power of the emotions evoked.

## Movie of the Week

*The Dark Knight Rises* is a 2012 superhero film directed by Christopher Nolan, based on the DC Comics character Batman. Starring Christian Bale, the film is the third installment in Nolan's Batman film series, and is a sequel to *Batman Begins* (2005) and *The Dark Knight* (2008).

## Album of the Week

*Spark Seeker* is the latest studio release from American reggae/alt rock musician [Matisyahu](#) and features the single, "Sunshine".

## Website of the Week

Founded in 1866, the [ASPCA](#) was the first humane organization in the Western Hemisphere, providing effective means for the prevention of cruelty to animals throughout the United States, and works to rescue animals from abuse, pass humane laws, as well as share resources with shelters nationwide.
